The Director
I.A. Division
Ministry of Environment, Forest & Climate Change
Indira Paryavaran Bhawan
Jor Bagh Road
New Delhi-110003

Sub.: Submission of Half Yearly Compliance Report and Environment Quality data of Smelter & CPP of Vedanta Limited, Jharsuguda for the period from April 2023 to September 2023

**Ref.: 1. Environment Clearance letter No. J-11011/144/2006-IA.II (I) dated 07.03.2007
2. Environment Clearance letter No. J-13011/10/2006-IA.II (T) dated 14.03.2007
3. Environment Clearance letter No. J-11011/29/2007-IA.II (I) dated 11.06.2008
4. Environment Clearance letter No. J-11011/29/2007-IA.II (I) dated 05.05.2022**

Dear Sir,

This has reference to the above subject and cited references. As per the provision of Environment Clearance and EIA notification 2006, we are herewith submitting the half yearly compliance status for conditions in the Environment Clearance for 2.5 LTPA Aluminium Smelter, Captive Power Plant 675 MW, expansion of Aluminium Smelter (2.5 to 16 LTPA) and Captive Power Plant (675 MW to 1350 MW), Aluminium Smelter 18 LTPA (16 to 18 LTPA) and Captive Power Plant at Parivesh Portal along with supporting documents .

Thanking you,
Yours faithfully,
For Vedanta Limited

Dr. Amit Kumar Tyagi
Head- Environment

Conditions

Specific Conditions

Sr.No.	Condition Type	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	AIR QUALITY MONITORING AND PRESERVATION	The gaseous emissions (PM, SO2, NOX, PAH, HC, VOCs and Fluoride) from various process units shall conform to the standards prescribed by the concerned authorities from time to time. The OSPCB may specify more stringent standards for the relevant parameters keeping in view the nature of the industry and its size and location. At no time, the emission levels shall go beyond the prescribed standards. In the event of failure of any pollution control system adopted by the unit, the respective unit shall not be restarted until the control	PPs Submission	All the gaseous emissions from various process units are confirming to the prescribed standards. The particulate matter emission from Bake Oven ranges between 3.9 to 5.3 mg/Nm3. In case of failure of any of the pollution control system of any unit, the respective unit will be started only after the control measures are rectified and achieve the desired efficiency. Analysis report enclosed for the period of Apr'23 to Sep'23 as Annexure-1 Complied Attachment: Click to View

		measures are rectified to achieve the desired efficiency. The particulate emissions from the bake oven plant shall not exceed 50 mg/Nm ³ .		
2	AIR QUALITY MONITORING AND PRESERVATION	Particulate fluoride emissions shall not be more than 0.65 mg/Nm ³ and fugitive particulate fluoride emissions from pot room shall not be more than 1.85 mg/Nm ³ .	PPs Submission	The particulate fluoride emission ranges between 0.032 to 0.070 mg/NM ³ and fugitive particulate fluoride emissions ranges between 0.74 to 1.7 mg/NM ³ respectively. Analysis report enclosed for the period of Apr?23 to Sep?23 as Annexure-1. Complied Attachment: Click to View
3	AIR QUALITY MONITORING AND PRESERVATION	The poly-aromatic hydrocarbons (PAH) from the carbon plant (anode bake oven) shall not exceed 2 mg/Nm ³ . The data on PAH shall be monitored quarterly and report submitted regularly to the Ministry/Regional Office at Bhubaneswar and OSPCB.	PPs Submission	PAH is being monitored in the stack of Bake Oven and is found in the range of 0.16 to 0.26 mg/Nm ³ . The same is monitored regularly and the report is submitted quarterly to the Regional office of the Ministry and monthly to the OSPCB. Analysis report enclosed for the period of Apr?23 to Sep?23 as Annexure-1. Complied Attachment: Click to View
4	AIR QUALITY MONITORING AND PRESERVATION	In-plant control measures like fume extraction and dust extraction system for controlling fugitive emissions from all the material handling/transfer points shall be provided to control dust emissions. Fugitive Fluoride emissions from the pot room and in the forage around the smelter complex shall be monitored and data submitted regularly to the Ministry's Regional Office at Bhubaneswar and OSPCB. Further dry	PPs Submission	We have provided dry scrubbing system and State of the art gas collection and handling system to extract the gaseous emissions generated in the process of aluminium smelting and baking of anodes to maintain the total fluoride emissions below the stipulated standards of 0.8 kg/T of aluminium produced. Fugitive fluoride emissions from the pot room and forage fluoride in the surrounding villages are being monitored regularly. The fluoride emissions through the fume treatment plants is being maintained below <0.3 Kg/T in case of pot rooms and <0.1 Kg/T in case of bake oven. The monitoring report is being submitted regularly to the Ministry's Regional Office and OSPCB. Analysis report enclosed for the period of Apr?23 to Sep?23 as Annexure-1.

		scrubbing system to control the emissions from the pot lines shall be provided.		Complied Attachment: Click to View
5	AIR QUALITY MONITORING AND PRESERVATION	Electrostatic precipitator (ESP) will be provided to Captive Power Plant (CPP) to control emissions below 100 mg/Nm ³ . The company shall provide bag-filters, dry scrubbing system and dust suppression system to control the all the emissions including fluoride emissions from all melting and casting units. Tar, dust and fluoride in the fumes shall be controlled in baking furnace by providing dry scrubber. The emissions shall conform to the standards prescribed by the Ministry/CPCB/SPCB whichever is more stringent.	PPs Submission	Hybrid ESP's comprising of bag filters have been installed to maintain emission level below 50 mg/Nm ³ in CPP. Bag-filters, dry scrubbing system and dust suppression system is being provided to control the emissions including fluoride emissions from all melting and casting units. Dry scrubber with a chilling/condensing unit is being provided to control tar, dust and fluoride in the fumes in baking furnace. All efforts will be made to ensure emissions levels within the standards prescribed by the Ministry/CPCB/OSPCB. Analysis report enclosed as Annexure-1 for the period of Apr'23 to Sep'23. Complied Attachment: Click to View
6	Corporate Environmental Responsibility	Fluoride consumption shall be less than 10 kg/ton of Aluminium produced as specified in the CREP guidelines.	PPs Submission	We are maintaining Fluoride consumption less than 10 kg/ton of Aluminum produced and from April'23 till Sep'23, Fluoride consumption is 9.56 Kg/T Al. Moreover, efforts have been made to bring down Fluoride consumption limit like revamping of FTP, procurement of low soda alumina & Digital AI based Modelling of Sp. Fluoride. Complied Attachment: NA
7	WASTE MANAGEMENT	Anode butts generated from the pots shall be cleaned and recycled to the Anode Plant. The spent pot lining generated from the smelter shall be	PPs Submission	? Anode butts generated from the pots is being recycled in the Green Anode Plant. ? The SPL generated from our smelter is being sent to OSPCB authorized agency M/s Green Energy Resources located at Sambalpur for detoxification which in turn is sending the detoxified material for further utilization in

		properly treated in spent pot lining treatment plant to remove fluoride and cyanide and disposed off in secured landfill. The location and design of the landfill site shall be approved by the OSPCB as per Hazardous Wastes (Management and Handling) Rules, 2003. Leachate collection facilities shall be provided to the secured landfill facility (SLF). The dross shall be recycled in the cast house. STP sludge shall be utilized as manure for green belt development. All the used oil and batteries shall be sold to the authorized recyclers/ re-processors.		<p>various industries including cement and steel. The refractory portion is being stored under covered shed till an approved disposal mechanism is in place. ? The secured landfill has been constructed including leachate collection system and collection of surface run off around the SLF to a common sump from where it is taken to the ETP for treatment. ? We are not disposing hazardous waste in the captive SLF and details are monthly submitted to OSPCB office for the same. ? The dross generated is either being internally processed for metal recovery or being sold to authorized re-processors. ? Currently Fly ash is being utilized in various avenues such as cement and brick manufacturing, road and infrastructure development, reclamation of low- lying areas, quarry back filling etc. and the balance is being sent to ash ponds through High Concentrated slurry disposal pipelines. We are in the process of exploring alternate options/avenues for fly ash utilization. ? STP sludge is composted and used for green belt/ green cover. ? Used batteries and Used oil are being stored in designated sheds and is disposed to authorized recyclers/ re-processors. Annual Return (Form 4) of FY 22 and FY 23 are enclosed as Annexure-2. Complied</p> <p>Attachment: Click to View</p>	
8	WASTE MANAGEMENT	Integrated Ash Management Plan shall be prepared for the utilization of fly ash as per Fly Ash Notification, 1999 as amended in 2003 and implemented. A copy of the plan shall be submitted to the Ministry's Regional Office. Fly ash shall be collected pneumatically in silos and used by cement and brick manufacturers for further utilization. Bottom Ash shall be disposed off in ash pond using	PPs Submission	<p>Fly ash is being collected in dry form in silos of capacity-12000 m3. Ash is being utilized in cement & brick manufacturing, road and infrastructure activities, reclamation of low-lying areas and the balance is disposed off to the ash pond in the form of High Concentration Slurry disposal. As per MOEF&CC Fly ash amendment notification dated 30th December 2022, we have declared our all ash ponds & dykes are operational in nature. The communication letter sent to the OSPCB & CPCB office vide letter no VL/AU/22-23/117/OPCB dated 30th March 2023. A copy of the same is enclosed as 3. As per Fly ash notification 2021, more than 106 % ash utilized in FY 2023. From April 23 to Sep 23, we have utilized 78.48 % (lower utilization due to extended monsoon) and monthly fly ash utilization report has been uploaded in CPCB portal. Moreover, continuous efforts have been made to utilize fly ash in different sustainable</p>	

		high concentrated slurry disposal method.		avenues as per enclosed plan for 100% Fly ash utilization/disposal. Copy of plan is enclosed 3. Complied Attachment: Click to View
9	WASTE MANAGEMENT	As proposed, spent pot lining waste shall also be provided to cement and steel industries for further utilization.	PPs Submission	The SPL generated from our smelter is being sent to OSPCB authorized agency M/s Green Energy Resources located at Sambalpur for detoxification which in turn is sending the detoxified material for further utilization in various industries including cement and steel. we have disposed ~51998.12 MT of SPL Carbon to authorized recycler and cement industry in FY 22 and FY 23 and the same is being continued. Annual Return (Form 4) of FY 22 and FY 23 are enclosed as Annexure-4. In addition to above quantity, from Apr'23 to Sep'23 we have disposed 7450.66 MT of SPL carbon to authorized recycler and cement industry. Complied Attachment: Click to View
10	WATER QUALITY MONITORING AND PRESERVATION	Regular ground water monitoring shall be carried out by installing Piezometers all around the secured landfill site in consultation with the Orissa Pollution Control Board, Central Ground Water Authority and State Ground Water Board and data submitted to the Ministry's Regional Office and OSPCB.	PPs Submission	Piezometers have been installed and the ground water monitoring around the SLF area is being done as per the CPCB guidelines and the same is being reported to SPCB and Regional Office of the Ministry. Analysis report enclosed for the period of Apr'23 to Sep'23 as Annexure 1. Complied Attachment: Click to View
11	Statutory compliance	Total water requirement for the expansion from Hirakud Reservoir shall not exceed 2,580 m3/hr and prior permission for the existing and proposed expansion shall be obtained	PPs Submission	We have a valid water agreement with Govt of Odisha Water Resource department, Burla for withdrawal of 40.9 cusec water from Hirakud reservoir for our Aluminium Smelter and CPP. From April 23 to September 23, the water consumption in Smelter 1 is in the range of 2000 to 2300 m3/hr. We have implemented various Water conservation measures in our plant

		from the concerned department before commissioning of the plant. All the effluent including from cooling tower and de-mineralization plant shall be treated in the effluent treatment plant and treated effluent shall be recycled / reutilized in the process in the smelter and CPP and also for fire protection, dust suppression, green belt development etc. Domestic effluent shall be treated in Sewage Treatment Plant (STP) and treated domestic wastewater will be used for green belt development.		to reduce the freshwater consumption. Effluent Treatment Plant along with Reverse Osmosis plant has been installed and the treated effluent is recycled in the process. The ETP Sludge has been sent to OSPCB approved TSDF for disposal. Domestic effluent is treated in the sewage treatment plant and treated water reused in the green belt development. No effluent is being discharged outside the plant premises. Copy of water withdrawal agreement is enclosed as Annexure-5. Complied Attachment: Click to View	
12	WATER QUALITY MONITORING AND PRESERVATION	No effluent shall be discharged outside the premises during the non-monsoon period and shall be discharged during the monsoon period only after proper treatment and meeting the norms of the OSPCB/CPCB.	PPs Submission	We have implemented various Water conservation measures in our plant to reduce the freshwater consumption. Effluent Treatment Plant along with Reverse Osmosis plant has been installed and the treated effluent is recycled in the process. The ETP Sludge has been sent to OSPCB approved TSDF for disposal. Domestic effluent is treated in the sewage treatment plant and treated water reused in the green belt development. No effluent is being discharged outside the plant premises. Complied Attachment: NA	
13	GREENBELT	Green belt of adequate width and density around the project site shall be developed in 33 % area in consultation with the DFO as per the CPCB guidelines having density of 2,000 trees/ha.	PPs Submission	33% Green belt has been developed all along the plant periphery and plant area. Efforts have been made to cover three tier green belt all along the periphery. High potential local species has been planted to attenuate the pollutants as per the CPCB guidelines. Moreover, as a responsible corporate, we have taken up plantation activities in Jharsuguda district at various locations. More than 70,000 saplings have already been planted.	

				Green belt photos are enclosed as Annexure 6. Complied Attachment: Click to View
14	Human Health Environment	Occupational Health Surveillance of the workers should be done on a regular basis and records maintained as per the Factories Act.	PPs Submission	Occupational Health Surveillance of the workers is being done on a regular basis and records are being maintained. Samples reports are enclosed as Annexure 7. Complied Attachment: Click to View
15	WATER QUALITY MONITORING AND PRESERVATION	The company shall develop rainwater structures to harvest the runoff water for recharge of ground water in consultation with the Central Ground Water Authority/Board.	PPs Submission	As per CGWA guidelines September 2020, the industries falling under hazardous category should not implement any recharge measures within the plant premises. Hence, we have carried out roof top rainwater harvesting facilities at our site to utilize the collected/harvested water. We have installed 7 nos. of roof top rainwater harvesting systems facilities with a total capacity of more than 10000 m3 of rainwater for reusing the same. Moreover, we have completed cleaning and restoration of more than 40 community ponds thereby augmenting the capacity for rainwater harvesting in the surrounding villages. Relevant photos are enclosed as Annexure 8. Complied Attachment: Click to View
16	Statutory compliance	Rehabilitation and Resettlement (R & R) Plan prepared and submitted to the State Govt. shall be implemented as per the R & R Policy of the State Government. All the recommendations mentioned in the R & R Plan shall be strictly followed including suitable	PPs Submission	The R & R package has been finalized based on the R & R Policy of Odisha incorporating the local additional requirement discussed in the RPDAC meeting chaired by the Revenue Divisional Commissioner and attended by the District Collector and representatives of the affected villagers. The District Collector/District Magistrate and the Administration is overseeing to ensure strict compliance of the commitment. Status Report enclosed as Annexure-9.

		employment and other facilities to all the oustees.		Complied Attachment: Click to View
17	Corporate Environmental Responsibility	All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Aluminium sector shall be strictly implemented.	PPs Submission	All recommendations as per CREP for Aluminium sector are being implemented and compliance status report is enclosed as Annexure-10. Complied Attachment: Click to View
18	Statutory compliance	All the environmental conditions stipulated by the Ministry vide letter no. J-11011/144/2006- IA II (I) dated 7th March, 2007 for the Aluminium Smelter Plant (2,50,000 TPA) at Village Bhurkamunda / Brundamal, District Jharsuguda, Orissa by M/s Vedanta Aluminium Ltd. shall be satisfactorily be complied and regular compliance report submitted to the Ministry's Regional Office at Bhubaneswar.	PPs Submission	All the environmental conditions stipulated for the Aluminium Smelter Plant (2.5 LTPA) are being complied. We are uploading half yearly compliance report along with monitoring data and supporting annexures in the MOEF&CC Parivesh Portal and uploaded on our website and link of the same is as below. Link: https://vedantaaluminium.com/sustainability/compliance-report-jharsuguda/ Complied Attachment: NA
19	Statutory compliance	Prior permission from the State Forest Department shall be obtained due to likely impact of transport of raw material and end product and gaseous emissions from the smelter on the surrounding reserve forests and wildlife. Recommendations regarding mitigative measures suggested by the State Forest Department and Chief Wildlife	PPs Submission	Raw material and end products are transported through existing rail and road networks through wagons, bulkers and covered trucks (which are closed and covered). The Principal Chief Conservator of Forests, (Wildlife) and Chief Wildlife Warden, Odisha has approved the site-specific wildlife conservation plan on 30.04.2021 with a financial forecast of Rs. 610.894 lakhs to be spent for implementation by the Forest Department (Both Jharsuguda and Sambalpur Forest Division) for this plan. Accordingly, as per the demand raised by the Divisional Forest Officer, Jharsuguda, an amount of Rs. 530.904 lakhs have been deposited on 17.05.2021 towards implementation of the above-

		Warden, Govt. of Orissa shall be strictly followed.		mentioned plan over a period of 10 years. The plan is under implementation by Forest Department. Moreover, the recommendations given in the wildlife management plan to be executed by Vedanta Ltd, have been completed except compliance of condition for providing the software for WL-Anukampa and its maintenance. We are continuously taking follow-up with the DFO office for the implementation status and way forward to comply the WL-Anukampa and its maintenance condition. Copy of the latest communication & implementation status are enclosed as Annexure 11. Complied Attachment: Click to View	
20	Statutory compliance	Ministry of Environment and Forests shall regularly be informed about the source and quantity of Alumina procured from captive/indigenous/imported sources.	PPs Submission	We regularly inform about the source and quantity of Alumina procured from captive/ indigenous/ imported sources. The source and quantity of alumina procured during April 2023 to September 23 is as below: Domestic ? 9.7 Lakh MT Imported ? 6.97 Lakh MT Imported alumina sources are as follows: 1. Trafigura Pte Ltd. 2. Alcoa of Australia Limited, Australia 3. Vietnam Coal & Mineral Industries Hoding Corporation Limited (Viancomin), Vietnam 4. PT Well Harvest Winning Alumina Refinery, Indonesia Domestic alumina sources are as follows: 5. Utkal Alumina Refinery, Doraguda, Rayagada, India 6. NALCO Alumina Refinery, Damanjodi, Odisha Complied Attachment: NA	
21	Statutory compliance	Alumina shall be obtained only from those refineries, which have been accorded environmental clearance by the Ministry of Environment and Forests.	PPs Submission	We ensure that alumina is being sourced from own refinery or from refineries in India which have been accorded Environmental Clearance by MoEF&CC. We also import alumina from other countries. Complied Attachment: NA	

General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks/Reason and Supporting Documents	
1	Statutory compliance	The project authorities must strictly adhere to the stipulations made by the Orissa State Pollution Control Board and the State Government.	PPs Submission	We are strictly adhering to the stipulations made by OSPCB. Complied Attachment: NA
2	Statutory compliance	No expansion or modification in the plant shall be carried out without prior approval of the Ministry of Environment and Forests.	PPs Submission	No expansion or modernization will be undertaken without prior approval of the Ministry. Complied Attachment: NA
3	AIR QUALITY MONITORING AND PRESERVATION	Adequate number of ambient air quality monitoring stations should be established in the downward direction as well as where maximum ground level concentration of SPM, SO ₂ and NO _x are anticipated in consultation with the OSPCB. Data on ambient air quality and stack emission should be regularly submitted to this Ministry including its Regional Office at Bhubaneswar and Orissa State Pollution Control Board once in six months.	PPs Submission	Manual & Continuous Ambient air quality monitoring stations have been established as per the mathematical modelling carried out during the Environmental Impact Assessment study. All stations are qualified the criteria of, downwind, upwind and crosswind directions. Communication letter enclosed as Annexure 12. Monitoring data of ambient air quality and stack monitoring are regularly submitted to MOEF&CC, IRO MOEF&CC, OSPCB and six monthly reports are enclosed as Annexure 1. Complied Attachment: Click to View

4	WATER QUALITY MONITORING AND PRESERVATION	Industrial wastewater should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. The treated wastewater should be recycled in the plant as well as utilization for plantation purposes.	PPs Submission	The wastewater generated from the plant is collected and treated in the effluent treatment plant to conform to the prescribed standards. The treated water is being recycled and reused in the plant. Analysis report enclosed for the period of Apr'23 to Sep'23 as Annexure-1. Complied Attachment: Click to View
5	WASTE MANAGEMENT	The project authorities must strictly comply with the rules and regulations with regard to handling and disposal of hazardous wastes in accordance with the Hazardous Wastes (Management and Handling) Rules, 2003. Authorization from the OSPCB must be obtained for collection, storage, treatment and disposal of hazardous wastes.	PPs Submission	We are strictly complying with the rules and regulations with regard to handling, collection, transport, treatment, storage and disposal of Hazardous waste in accordance with the Hazardous Wastes (Management and Handling) Rules, 2016 and are having a valid Hazardous waste authorization for the management of Hazardous wastes from OSPCB. Complied Attachment: NA
6	Noise Monitoring & Prevention	The overall noise levels in and around the plant area should be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise	PPs Submission	The overall noise levels are being maintained below the stipulated standards as per EPA Rules, 1989. The ambient noise levels monitored are observed within 61.9 dB(A) to 74.8 dB(A) during daytime and 56.60 dB(A) to 69.50 dB(A) in night time. Monitoring report is enclosed as Annexure 1 for the period of Apr'23 to Sep'23. Complied Attachment: Click to View

		generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (daytime) and 70 dBA (nighttime).		
7	Statutory compliance	The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA / EMP /risk analysis and DMP report.	PPs Submission	All environmental protection measures and safeguards as recommended in the EIA/EMP/risk analysis and DMP are being implemented. Refer the implementation status report enclosed as Annexure -13. Complied Attachment: Click to View
8	Statutory compliance	As proposed in EIA/EMP, Rs. 505.00 Crores earmarked toward the capital cost and recurring the expenditure/annum for environmental protection measures shall be used judiciously to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. The funds so provided shall not be diverted for any other purposes.	PPs Submission	We have earmarked capital cost towards installation of environmental control, monitoring systems and green belt development. Every year the budget is separately allocated for the O&M of pollution control, monitoring systems, Greenbelt development, which is not diverted for any other purpose. Refer the implementation status report enclosed as Annexure -13. Complied Attachment: Click to View
9	Statutory compliance	The Regional Office of this Ministry at Bhubaneswar/Central Pollution Control Board/ OSPCB will monitor the stipulated conditions. A	PPs Submission	We are uploading half yearly compliance report along with monitoring data and supporting annexures in the MOEF&CC Parivesh Portal and uploaded on our website and link of the same is as below. Link: https://vedantaaluminium.com/sustainability/compliance-report-

		<p>six monthly compliance report and the monitored data along with statistical interpretation should be submitted to them regularly.</p>	<p>View Compliance</p> <p>jharsuguda/ Complied Attachment: NA</p>	
10	Statutory compliance	<p>The Project Proponent should inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the State Pollution Control Board/ Committee and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in. This should be advertised within seven days from the date of issue of the clearance letter at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same should be forwarded to the Regional office.</p>	<p>PPs Submission</p> <p>Necessary advertisement with information as advised by the Ministry has been released in two local newspapers one in vernacular (Samaja, Sambalpur on 25.06.2008) and one in English (Times of India, Bhubaneswar on 25.06.2008) Details of the advertisement published in the newspaper are enclosed Annexure-14. Complied Attachment: Click to View</p>	
11	Statutory compliance	<p>The Project Authorities should inform the Regional Office as well as the Ministry, the date of financial closure and final</p>	<p>PPs Submission</p> <p>The project of 16 LTPA Aluminum Smelter and 1215 MW CPP was approved by MOEF&CC vide EC letter no J-11011/29/2007-IA-II (I) dated 11.06.2008 and OSPCB Consent to Establish (CTE) vide letter no 7723/IND-II-NOC-4870 dated 18.05.2009 and OSPCB Consent to</p>	

approval of the project by the concerned authorities and the date of commencing the land development work.

Operate (CTO) vide letter no 4695/IND-CON-6079 dated 27.03.2023.
