

VL/MOEF/006 2025 - 19 November 22, 2025

Deputy Director General of Forests (C), Ministry of Environment, Forest and Climate Change, Integrated Regional Office, A 3, Chandersekharpur, Bhubaneswar, Odisha – 751023

Sub: Submission of Half-Yearly Compliance Report of Smelter & CPP of Vedanta Limited, Jharsuguda for the period from April 2025 to September 2025

Ref: 1. Environment Clearance letter No. J-11011/144 2006-IA.II (1) dated 07.03.2007

- 2. Environment Clearance letter No. J-13011/10 2006-IA.H (T) dated 14.03.2007
- 3. Environment Clearance letter No. J-11011/29 2007-IA.II (I) dated 11.06.2008
- 4. Environment Clearance letter No. J-11011/29 2007-IA.II (I) dated 05.05.2022

Dear Sir.

This has reference to the above subject, cited reference and as per the provision of Environment Clearance and EIA notification 2006, we are herewith submitting the half-yearly compliance status for conditions in the Environment Clearance for 2.5 LTPA Aluminium Smelter, Captive Power Plant 675 MW, expansion of Aluminium Smelter (2.5 to 16 LTPA) and Captive Power Plant (675 MW to 1350 MW), Aluminium Smelter 18 LTPA (16 to 18 LTPA) and Captive Power Plant.

We would like to draw your attention towards the fact that we are facing problem during uploading of half-yearly compliance report at Parivesh 2.0 Portal. Moreover we are also facing problem in raising the ticket on Parivesh 2.0 Portal for the above issue (screenshot enclosed). We will upload the documents as soon as the issue will be resolved. In order to meet the stipulated timeline of submission, we are hereby submitting the half-yearly compliance reports via email and hardcopies of the Annexures will be submitted due to constraints of size of files.

Thanking You,

Yours Faithfully,

For Vedanta Limited

Dr. Amit Kumar Tyagi Head- Environment

- CC: 1. The Director, I.A. Division, Ministry of Environment, Forests & Climate Change, Indira Paryavaran Bhawan, Jor Bagh Road, New Delhi 110003
 - 2. The Member Secretary, Central Pollution Control Board, "Paribesh Bhawan", CBD-Cum Office Complex, East Arjun Nagar, New Delhi-110032
 - 3. The Member Secretary, State Pollution Control Board, Odisha, Bhubaneswar

Enclosed: As above

Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (I) dated 11th June, 2008

S. No.	CONDITIONS	COMPLIANCE STATUS
SPECII	FIC CONDITIONS	
i	The gaseous emissions (PM, SO ₂ , NO _X , PAH, HC, VOCs and Fluoride) from various process units shall conform to the standards prescribed by the concerned authorities from time to time. The OSPCB may specify more stringent standards for the relevant parameters keeping in view the nature of the industry and its size and location. At no time, the emission levels shall go beyond the prescribed standards. In the event of failure of any pollution control system adopted by the unit, the respective unit shall not be restarted until the control measures are rectified to achieve the desired efficiency. The particulate emissions from the bake oven plant shall not exceed 50 mg/Nm ³ .	The particulate & gaseous emissions from various process units are confirming to the prescribed standards. As per the notification G.S.R. 465(E), dated 11th July 2025, the Sulphur dioxide emission standards shall not be applicable to all C Category thermal power plants subject to ensuring compliance of stack height criteria. As per the criteria mentioned in the notification, we are falling under category C and stack height of our powerplants is 275m since the inception of plant. So SO ₂ standard has not applicable to our plant. In case of failure of any of the pollution control system of any unit, the respective unit will be started only after the control measures are rectified and have achieved the desired efficiency. The particulate matter emission from Bake Oven ranges between 4.9 to 5.9 mg/Nm³. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
ii	Particulate fluoride emissions shall not be more than 0.65 mg/Nm³ and fugitive particulate fluoride emissions from pot room shall not be more than 1.85 mg/Nm³.	The particulate fluoride emission ranges between 0.042 to 0.069 mg/Nm³. Roof monitoring system through cassette method has been installed for fugitive fluoride (gaseous and particulate) monitoring and the same is being carried out by MoEFCC approved lab and fugitive particulate fluoride emissions ranges between 0.268 to 0.689 mg/Nm³. Moreover, laser-based fluoride monitoring system has also been installed in pot rooms for monitoring of fugitive fluoride and online data transmitted on OSPCB server. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
iii	The poly-aromatic hydrocarbons (PAH) from the carbon plant (anode bake oven) shall not exceed 2 mg/Nm³. The data on PAH shall be monitored quarterly and report submitted regularly to the Ministry/Regional Office at Bhubaneswar and OSPCB.	Poly-Aromatic Hydrocarbons (PAH) is being monitored in the stack of Bake Oven and is in the range of 0.21 to 0.26 mg/Nm ³ . The same is monitored regularly and report is submitted quarterly, six monthly to MoEFCC and regional office of the Ministry and monthly to the OSPCB. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
iv	In-plant control measures like fume extraction and dust extraction system for controlling fugitive emissions from all the material handling/transfer points shall be provided to control dust emissions. Fugitive Fluoride emissions from the pot room and in the forage around the smelter	State of the art gas collection and handling system to extract the gaseous emissions generated in the process of aluminium smelting and baking of anodes to maintain the total fluoride emissions below the stipulated

\$

VEDANTA LIMITED, JHARSUGUDA

Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (I) dated 11th June, 2008

	complex shall be monitored and data submitted regularly to the Ministry's Regional Office at Bhubaneswar and OSPCB. Further dry scrubbing system to control the emissions from the pot lines shall be provided.	Fugitive fluoride emissions from the pot room and forage fluoride in the surrounding villages are being monitored regularly. The fluoride emissions through the fume treatment plants is being maintained below <0.3 Kg/T in case of pot rooms and <0.1 Kg/T in case of bake oven. The monitoring report is being submitted regularly to the Ministry's Regional Office and OSPCB. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
V	Electrostatic precipitator (ESP) will be provided to Captive Power Plant (CPP) to control emissions below 100 mg/Nm³. The company shall provide bag-filters, dry scrubbing system and dust suppression system to control the all the emissions including fluoride emissions from all melting and casting units. Tar, dust and fluoride in the fumes shall be controlled in baking furnace by providing dry scrubber. The emissions shall conform to the standards prescribed by the Ministry/CPCB/SPCB whichever is more stringent.	Hybrid ESPs comprising of bag filters have been installed to maintain emission level below 50 mg/Nm³ in CPP. Bag-filters, dry scrubbing system and dust suppression system is being provided to control the emissions including fluoride emissions from all melting and casting units. Dry scrubber with a chilling/condensing unit is being provided to control tar, dust and fluoride in the fumes in Bake Oven Plant. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
vi	Fluoride consumption shall be less than 10 kg/ton of Aluminium produced as specified in the CREP guidelines.	MoEF&CC has notified revised standards dated 21.07.25 for Aluminium Smelters and this condition has been replaced by AlF3 consumption of 20 kg/ton of Al from the date of notification. Further, we have submitted letter dated 04.08.25 to your good office for using the new standard and as per new standard our AlF3 consumption from Apr'25-Sep'25 ranges between 16.631 to 19.905 kg/MT of Al. Notification copy enclosed as Annexure-4.
vii	Anode butts generated from the pots shall be cleaned and recycled to the Anode Plant. The spent pot lining generated from the smelter shall be properly treated in spent pot lining treatment plant to remove fluoride and cyanide and disposed off in secured landfill. The location and design of the landfill site shall be approved by the OSPCB as per Hazardous Wastes (Management and Handling) Rules, 2003. Leachate collection facilities shall be provided to the secured landfill facility (SLF). The dross shall be recycled in the cast house. STP sludge shall be utilized as manure for green belt development. All the used oil and batteries shall be sold to the authorized recyclers/ re-processors.	 Anode butts generated from the pots is being recycled in the Green Anode Plant. The SPL generated from our smelter is being sent to OSPCB authorized agency M/s Green Energy Resources located at Sambalpur for detoxification which in turn is sending the detoxified material for further utilization in various industries including cement and steel. The refractory portion is being disposed off to Re Sustainability TSDF (formerly known as RAMKY TSDF) as per the Hazardous Waste Authorization. stored under covered shed till an approved disposal mechanism is in place. The secured landfill has been constructed including leachate collection system and collection of surface run off around the SLF to a common sump from where it is taken to

VEDANTA LIMITED, JHARSUGUDA

Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (I) dated 11th June, 2008

the ETP for treatment. SLF phase I has been

		capped, and monitoring is being carried out as per the CPCB guidelines. • We are not disposing hazardous waste in the captive SLF, and details are monthly submitted to OSPCB office for the same. • The dross generated is either being internally processed in dross processing unit for metal recovery or being sold to OSPCB authorized re-processors. • Fly ash is being utilized in various sustainable avenues such as cement and brick manufacturing, road and infrastructure development, reclamation of low-lying areas, quarry back filling etc. • STP sludge is being used in green belt as a manure. • Used batteries and Used oil are being stored in designated sheds and is disposed to authorized recyclers/ re-processors. Annual Return (Form-4) of FY-22, FY-23, FY-24 and FY-25 are enclosed as Annexure-6.
viii	Integrated Ash Management Plan shall be prepared for the utilization of fly ash as per Fly Ash Notification, 1999 as amended in 2003 and implemented. A copy of the plan shall be submitted to the Ministry's Regional Office. Fly ash shall be collected pneumatically in silos and used by cement and brick manufacturers for further utilization. Bottom Ash shall be disposed off in ash pond using high concentrated slurry disposal method.	Integrated Ash Management Plan has been prepared and submitted as early as in 2007 as a part of the Rapid EIA. Further, a detailed plan was submitted for the utilization of fly ash as per Fly Ash Notification, 1999 as amended in 2003 and 2009 to the Ministry's Regional Office vide letter no. VAL/MoEF/SMA-106/2012-011 dated June 30, 2012. Fly ash is being collected in dry form in silos of capacity 12000 m³. Ash is being utilized in cement, brick manufacturing, road and infrastructure activities, reclamation of low-lying areas and the balance is disposed off to the ash pond in the form of High Concentration Slurry disposal for further utilization in sustainable avenues. As per MoEFCC Fly ash amendment notification dated 30th December 2022, We have 3 operational ash ponds/dykes (Kurebaga, Siriapali and Katikela) and stored ash is being utilized regularly in the sustainable avenues. The communication letter sent to the OSPCB and CPCB office vide letter no VL/AU/22-23/117/OPCB dated 30th March 2023. Letter is enclosed as Annexure-10a. As per Fly ash notification 2021 and its subsequent amendments, more than 100 percent ash was utilized in FY 2025 and the same is being planned for FY 26 also. Monthly fly ash utilization report has been uploaded in CPCB portal. Moreover, continuous efforts have been

VEDANTA LIMITED, JHARSUGUDA
Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (I) dated 11th June, 2008

		made to utilize fly ash in different sustainable avenues as per enclosed plan for 100 percent Fly ash utilization/disposal in close coordination with the statutory bodies. Ash Utilization Plan of FY-26 and request letters are enclosed as Annexure-10b and Annexure-10c respectively.		
ix	As proposed, spent pot lining waste shall also be provided to cement and steel industries for further utilization.	The SPL generated from our smelter is being sent to OSPCB authorized agency for detoxification which in turn is sending the detoxified material for further utilization in various industries including cement and steel. We have disposed 88204.58 MT of SPL Carbon since FY-22 till September of FY-26 to authorized recycler. We have successfully disposed of the entire SPL Refractory Silicon Carbide waste to authorized recycler based on CPCB SOP. Moreover, despite the limitations, we have explored the utilization of SPL mixed fines for co-processing in cement industry since FY-22 and the same is being continued. Further, we have already disposed 9858.46 MT of Refractory SPL in FY'25 and 32718.66 MT of Refractory SPL in FY'26 till Sept'25 to Re Sustainability TSDF (formerly known as RAMKY TSDF) as per the Hazardous Waste Authorization. Annual Return (Form-4) of FY-22, FY-23, FY-24 and FY-25 are		
x	Regular ground water monitoring shall be carried out by installing Peizometers all around the secured landfill site in consultation with the Orissa Pollution Control Board, Central Ground Water Authority and State Ground Water Board and data submitted to the Ministry's Regional Office and OSPCB.	enclosed as Annexure-6. Piezometers have been installed in consultation with OSPCB and the ground water monitoring around the SLF area is being done as per the CPCB guidelines and monthly reports submitted to the OSPCB and quarterly to RO, MoEFCC Office. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.		
xi	Total water requirement for the expansion from Hirakud Reservoir shall not exceed 2,580 m³/hr and prior permission for the existing and proposed expansion shall be obtained from the concerned department before commissioning of the plant. All the effluent including from cooling tower and de-mineralization plant shall be treated in the effluent treatment plant and treated effluent shall be recycled / reutilized in the process in the smelter and CPP and also for fire protection, dust suppression, green belt development etc. Domestic effluent shall be treated in Sewage Treatment Plant	We have a valid water agreement with Govt of Odisha Water Resource department, Burla for withdrawal of 40.9 cusec water from Hirakud reservoir for our Aluminium Smelter and CPP. We have implemented various water conservation measures in our plant to reduce the freshwater consumption. Effluent Treatment Plant along with Reverse Osmosis plant has been installed and the treated effluent is recycled in the process. The ETP Sludge has been sent to OSPCB approved TSDF for disposal. Domestic effluent is treated in the sewage treatment plant and treated water reused in the green belt development. No effluent is being discharged

		Water with drawal
	(STP) and treated domestic wastewater will be used for green belt development.	outside the plant premises. Water withdrawal agreement is enclosed as Annexure-34.
xii	No effluent shall be discharged outside the premises during the non-monsoon period and shall be discharged during the monsoon period only after proper treatment and meeting the norms of the OSPCB/CPCB.	We have implemented various water conservation measures in our plant to reduce the freshwater consumption. Effluent Treatment Plant along with Reverse Osmosis plant has been installed and the treated effluent is recycled in the process. Domestic effluent is treated in the sewage treatment plant and treated water reused in the green belt development. No effluent is being discharged outside the plant premises. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
xiii	Green belt of adequate width and density around the project site shall be developed in 33 % area in consultation with the DFO as per the CPCB guidelines having density of 2,000 trees/ha.	along the plant periphery and plant area. Efforts have been made to cover three tier green belt all along the periphery. High potential local species has been planted to attenuate the pollutants as per the CPCB guidelines. We would like to bring your kind notice towards the fact that Jharsuguda town is situated more than 3 Km. Moreover, as a responsible corporate, we have taken up plantation activities in Jharsuguda at various locations. Green Belt Photos are enclosed as Annexure-5a. We have taken up a mass plantation drive outside plant premises in an area of ~50 acres with I lakh saplings under MoEFCC drive-Ek Ped Maa Ke Naam. Letter enclosed as Annexure-5c.
xiv	Occupational Health Surveillance of the workers should be done on a regular basis and records maintained as per the Factories Act.	Occupational Health Surveillance of the workers is being done on a regular basis and records are being maintained. Sample records are enclosed as Annexure-25.
xv	The company shall develop rainwater structures to harvest the runoff water for recharge of ground water in consultation with the Central Ground Water Authority/Board.	As per CGWA guidelines September 2020, the industries falling under hazardous category should not implement any recharge measures within the plant premises. Hence, we have carried out roof top rainwater harvesting structures at our site to utilize the collected/harvested water. CGWA guideline enclosed as Annexure-35. We have installed 7 nos. of roof top rainwater harvesting structure with a total capacity of more than 10000 m³ of rainwater for reuse. The details our complex has been submitted to CGWA vide letter no VL/CGWB/003/2024-01 dated Augus 05, 2024. Letter enclosed as Annexure-8a. Moreover, we have completed cleaning and restoration of various community ponds and farm ponds thereby augmenting the capacity for

Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (1) dated 11th June, 2008

		rainwater harvesting in the surrounding villages. Photos of few ponds are enclosed as Annexure-8b.
xvi	Rehabilitation and Resettlement (R & R) Plan prepared and submitted to the State Govt. shall be implemented as per the R & R Policy of the State Government. All the recommendations mentioned in the R & R Plan shall be strictly followed including suitable employment and other facilities to all the oustees.	The R and R package has been finalized based on the R and R Policy of Odisha incorporating the local additional requirement discussed in the RPDAC meeting chaired by the Revenue Divisional Commissioner and attended by the District Collector and representatives of the affected villagers. The District Collector/District Magistrate and the Administration is overseeing to ensure strict compliance of the commitment. Status Report enclosed as Annexure-36.
xvii	All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Aluminium sector shall be strictly implemented.	The recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Aluminium and its subsequent amendments is being implemented at site. Status enclosed as Annexure-9.
xviii	All the environmental conditions stipulated by the Ministry vide letter no. J-11011/144/2006- IA II (I) dated 7th March, 2007 for the Aluminium Smelter Plant (2,50,000 TPA) at Village Bhurkamunda / Brundamal, District Jharsuguda, Orissa by M/s Vedanta Aluminium Ltd. shall be satisfactorily be complied and regular compliance report submitted to the Ministry's Regional Office at Bhubaneswar.	All the environmental conditions stipulated for the Aluminium Smelter Plant (2.5 LTPA) are being complied. We are uploading half yearly compliance report along with monitoring data and supporting annexures in the MoEFCC Parivesh Portal and uploaded on our website and link of the same is as below. https://vedantaaluminium.com/sustainability/compliance-report-jharsuguda/
xix	Prior permission from the State Forest Department shall be obtained due to likely impact of transport of raw material and end product and gaseous emissions from the smelter on the surrounding reserve forests and wildlife. Recommendations regarding mitigative measures suggested by the State Forest Department and Chief Wildlife Warden, Govt. of Orissa shall be strictly followed.	Raw material and end products are transported through existing rail and road networks through wagons, bulkers and covered trucks (which are closed and covered). The Principal Chief Conservator of Forests, (Wildlife) and Chief Wildlife Warden, Odisha has approved the site-specific wildlife conservation plan on 30.04.2021 with a financial forecast of Rs. 610.894 lakhs to be spent for implementation by the Forest Department (Both Jharsuguda and Sambalpur Forest Division) for this plan. Accordingly, as per the demand raised by the Divisional Forest Officer, Jharsuguda, an amount of Rs. 530.904 lakhs have been deposited on 17.05.2021 towards implementation of the above-mentioned plan over a period of 10 years. The plan is under implementation by Forest Department. Moreover, the recommendations given in the wildlife management plan to be executed by Vedanta Ltd. have been completed except compliance of condition for providing the software for WL-Anukampa and its

		maintenance. We are continuously taking follow-up with the DFO office for the implementation status and way forward to comply the WL-Anukampa and its maintenance condition. Latest communication and implementation status are enclosed as Annexure-13.
XX	Ministry of Environment and Forests shall regularly be informed about the source and quantity of Alumina procured from captive/indigenous/imported sources.	We regularly inform about the source and quantity of Alumina procured from captive/indigenous/ imported sources. The source and quantity of alumina procured during Apr'25-Sep'25 is as below: Domestic – 11.43 Lakh MT Imported – 5.78 Lakh MT Imported alumina sources are as follows: • Vietnam Coal and Mineral Industries Holding Corporation Limited (Vinacomin), Vietnam • PT. Borneo Alumindo Prima • PT Well Harvest Winning Alumina Refinery, Indonesia • Worsley Alumina, Australia • Rio Tinto Aluminium, Australia • Pt. Bintan Alumina, Indonesia • Maaden • Alumar Brazil • Weiqiao, China Domestic alumina sources are as follows: • Utkal Alumina Refinery, Doraguda, Rayagada, India • NALCO Alumina Refinery, Damanjodi, Odisha • Alumina Refinery , Lanjigarh Odisha
xxi	Alumina shall be obtained only from those refineries, which have been accorded environmental clearance by the Ministry of Environment and Forests.	We ensure that alumina is being sourced from own refinery or from refineries in India which have been accorded Environmental Clearance by MoEFCC. We also import alumina from other countries.
GENE	RAL CONDITIONS	
I	The project authorities must strictly adhere to the stipulations made by the Orissa State Pollution Control Board and the State Government.	Noted
II	No expansion or modification in the plant shall be carried out without prior approval of the Ministry of Environment and Forests.	Noted
III	Adequate number of ambient air quality monitoring stations should be established in the downward direction as well as where maximum ground level concentration of	Manual and Continuous Ambient air quality monitoring stations have been established as per the mathematical modelling carried out during the Environmental Impact Assessment study. All

VEDANTA LIMITED, JHARSUGUDA

Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (I) dated 11th June, 2008

	SPM, SO ₂ and NO _X are anticipated in consultation with the OSPCB. Data on ambient air quality and stack emission should be regularly submitted to this Ministry including its Regional Office at Bhubaneswar and Orissa State Pollution Control Board once in six months.	stations are qualified the criteria of downwind, upwind and crosswind directions. Communication letter enclosed as Annexure-37. We had already submitted an application/letter to OSPCB regarding precise location of the AAQMS on dated 22.04.2024, 08.07.2024 and 25.07.2024 along with a report Air Dispersion Modelling for Power and Aluminium Plant, Bhurkamunda, Jharsuguda - to Check the Efficacy of the Existing Ambient Air Quality Network (manual and CAAQMS) by Professor Mukesh Sharma, IIT Kanpur. Monitoring data of ambient air quality and stack monitoring are regularly submitted to MoEFCC, IRO MoEFCC, OSPCB. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
IV	Industrial wastewater should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19 th May, 1993 and 31 st December, 1993 or as amended from time to time. The treated wastewater should be recycled in the plant as well as utilization for plantation purposes.	The wastewater generated from the plant is collected and treated in the effluent treatment plant to conform to the prescribed standards. The treated water is being recycled and reused in the plant. Domestic effluent is treated in the sewage treatment plant and treated water reused in the green belt development. No effluent is being discharged outside the plant premises. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
V	The project authorities must strictly comply with the rules and regulations with regard to handling and disposal of hazardous wastes in accordance with the Hazardous Wastes (Management and Handling) Rules, 2003. Authorization from the OSPCB must be obtained for collection, storage, treatment and disposal of hazardous wastes.	We are strictly complying with the rules and regulations with regard to handling, collection, transport, treatment, storage and disposal of Hazardous waste in accordance with the Hazardous Wastes (Management and Handling) Rules, 2016 and are having a valid Hazardous waste authorization for the management of Hazardous wastes from OSPCB.
VI	The overall noise levels in and around the plant area should be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (daytime) and 70 dBA (nighttime).	The overall noise levels are being maintained below the stipulated standards as per EPA Rules, 1989. The ambient noise levels monitored are observed within 52.3 dB(A) to 74.4 dB(A) during daytime and 43.6 dB(A) to 69.6 dB(A) in nighttime. Monitoring Report for the period of Apr-25 to Sep-25 enclosed as Annexure-2.
VII	The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA / EMP /risk analysis and DMP report.	All environmental protection measures and safeguards as recommended in the EIA/EMP/risk analysis and DMP are being implemented. Implementation status report enclosed as Annexure-38.

VEDANTA LIMITED, JHARSUGUDA

Compliance Status on Environmental Clearance – Expansion of Aluminium Smelter (2.5 to 16 LTPA) and CPP (675 MW to 1350 MW) vide letter no. J-11011/29/2007-IA II (I) dated 11th June, 2008

VIII	As proposed in EIA/EMP, Rs. 505.00 Crores earmarked toward the capital cost and recurring the expenditure/annum for environmental protection measures shall be used judiciously to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. The funds so provided shall not be diverted for any other purposes.	We have earmarked capital cost towards installation of environmental control, monitoring systems and green belt development. Every year the budget is separately allocated for the Operation and Maintenance of pollution control, monitoring systems, Greenbelt development, which is not diverted for any other purpose. Expenditure details enclosed as Annexure-39.
IX	The Regional Office of this Ministry at Bhubaneswar/Central Pollution Control Board/ OSPCB will monitor the stipulated conditions. A six monthly compliance report and the monitored data along with statistical interpretation should be submitted to them regularly.	We are uploading half yearly compliance report along with monitoring data and supporting annexures in the MoEFCC Parivesh Portal and uploaded on our website and link of the same is as below. https://vedantaaluminium.com/sustainability/compliance-report-jharsuguda/
X	The Project Proponent should inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the State Pollution Control Board/Committee and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in. This should be advertised within seven days from the date of issue of the clearance letter at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same should be forwarded to the Regional office.	Necessary advertisement with information as advised by the Ministry has been released in two local newspapers one in vernacular (Samaja, Sambalpur on 25.06.2008) and one in English (Times of India, Bhubaneswar on 25.06.2008). Advertisement published in the newspaper are enclosed Annexure-40.
XI	The Project Authorities should inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.	The project of 16 LTPA Aluminium Smelter and 1215 MW CPP was approved by MoEFCC vide EC letter no J-11011/29/2007-IA-II (I) dated 11.06.2008 and OSPCB Consent to Establish (CTE) vide letter no 7723/IND-II-NOC-4870 dated 18.05.2009 and OSPCB renewed Consent to Operate (CTO) vide letter no 6536/IND-CON-6079 dated 28.03.2025. We have commenced the land development work as per the Consent to Establish and final approval i.e. Consent to Operate.

Sl.No.	Terms and Conditions	Status		
a.	Details regarding change in source (location of the source, proposed quantity, distance from the power plant and mode of transportation), quality (Ash, Sulphur, Moisture content and Calorific value) shall be informed to the Ministry and its concerned Regional Office. The quantity of coal transported from each source along with the mode of transportation shall be submitted as part of EC Compliance Report. 1. Domestic to Domestic 2. from domestic to domestic (blended with imported coal up to 30% content of imported coal) 3. from imported to imported (blended with domestic coal up to 10% content of domestic coal) 4. from imported to domestic (where the GCV of the domestic coal is of the	We have procured the coal from the below domestic sources: Source - MCL, NLC, OCPL, and Captive Mine (Jamkhani). Coal Quality details - GCV (Kcal/kg) ARB - Approx 2800 to Approx 3400 Ash - 40 percent to 50 percent Sulphur Content - 0.34 percent to 0.55 percent Total Moisture -11.73 percent to 13.51 percent		
b.	same grade as of imported coal). The applicable flue gas emissions standards for Particulate Matter, Sulphur Dioxide, Oxides of Nitrogen and Mercury shall be complied in line with Ministry's Notification vide S.O. 3305(E) dated 7.12.2015 and subsequent emissions. A progress of implementation and its compliance shall be submitted as part of Compliance Report.	Applicable flue gas emission standards like PM, SO2, NOX and Hg is being monitored regularly. Monitoring Report for the period of Oct-24 to Nov-25 enclosed as Annexure-2. As per the notification G.S.R. 465(E). dated 11th July 2025, the FGD system for Sulphur dioxide emission standards shall not be applicable to all Category C thermal power plants subject to ensuring compliance of stack height criteria. As per the criteria mentioned in the notification, we have been falling under category C and are compliant of stack height criteria since inception. So, this condition is not applicable for our Industry. Notification copy enclosed as Annexure-42.		
C.	Ash content in the Coal and Coal transportation is governed by the Ministry's Notification vide S.O. 1561 (E) dated 21.5.2020. As far as possible, Coal transportation shall be done by rail/conveyor or other eco-friendly modes. However, road transportation is allowed with tarpaulin covered trucks till the railway/ conveyor belt infrastructure is made available. A progress (Physical and financial) of rail connectivity from nearest railway siding or conveyor connectivity to the power plant hall be submitted in the EC compliance report.	Mode of transportation of coal is rail and road with proper mitigative measures. In addition to that we have provided railway infrastructure inside plant premises for unloading of coal with proper mitigative measures.		
d.	Additional ash pond shall not be permitted on account of increase in ash content in the	Noted. As per Fly ash notification 2021 and its subsequent amendments, more than 100		

	raw coal as due to change in coal source including lignite other than the ash pond permitted and specified in the Prior Environmental Clearance. 100% fly ash utilisation is to be achieved within 4 years in accordance with the extant provisions laid down in the Fly ash notifications dated 14.09.1999, 27.08.2003, 3.11.2009 & 25.01.2016, 31.12.2021 and 30.12.2022 as amended from time to time.	same is planned for FY 2026 also. Moreover, continuous efforts have been made to utilize fly ash in different sustainable avenues as per enclosed plan for 100 percent Fly ash utilization/disposal in close coordination with the statutory bodies. Ash Utilization Plan of FY-26 and request			
e.	In case of exceptional circumstances, project proponents may approach the Ministry for seeking permission to use an emergency ash pond with cogent reasons, if any.	Noted.			
f.	The details regarding monthly generation, utilisation and disposal of fly ash (including bottom ash) shall be submitted to the Ministry and its Regional Office.	Monthly fly ash utilization report has been uploaded in CPCB portal.
