Government of India,  
A/3, Chandrasekharpur, Bhubaneswar 751023 (Odisha)

Sub: Submission of six-monthly Environmental Clearance compliance report **(for the period October 2025 to March 2026)** with respect to Kuraloi A North Coal Mine of M/s Vedanta Limited located at villages: Pipilimal, Dhauramunda, Kuraloi, Belpahar, Banjari and Bartap; Tehsil: Lakhanpur; District: Jharsuguda; State: Odisha

Ref: -1. Environmental clearance vide IA-J-11015/34/2022-IA-II(M) dated 29.07.2025

Dear Sir,

The MoEF&CC granted the environmental clearance for 8.0 MTPA coal production for Kuraloi A North Coal Mine on 29.07.2025 in name of M/s Vedanta Limited vide file no. IA-J-11015/34/2022-IA-II(M).

With reference to subject, as per the EIA Notification 2006, clause no 10 (ii), we are herewith enclosing the six-monthly EC compliance report **(for the period October 2025 to March 2026)** in respect of Kuraloi A North Coal Mine of M/s Vedanta Limited. The copy of compliance report uploaded on MOEF&CC Parivesh portal.

We would herewith like to bring to your kind attention that the mining activity in Kuraloi A North Coal Mine is not yet commenced due to pendency of few statutory clearances. Once the mine operation starts ,it will be intimated to you good office.

This is for your kind information & necessary record please.

Thanking You,

For, Vedanta Limited.

Raj Kishore Singh

COO Coal Mines & Project Head- Kuraloi A North Coal Mine

Half Yearly Compliance Report of the Environment Clearance for production capacity of 8.00 MTPA coal in favour Kuraloi-A North Coal Block Opencast Coal mine (ML area: 965.58 Ha) of M/s Vedanta Limited located at Villages: Pipilimal, Dhauramunda, Kuraloi, Belpahar, Banjari and Bartap; Tehsil: Lakhanpur; District: Jharsuguda; State: Odisha granted by MoEF&CC vide file No IA-J-11015/34/2022-IA-II(M) dated 29.07.2025

(Six Monthly Compliance Report – Oct'25 to Mar'26)

Sl No.	Condition Type	EC Conditions	Compliance/ Status
<b>Specific EC Conditions for (Mining of Minerals)</b>			
<b>Specific Conditions</b>			
1.1	Specific	Project proponent shall not carry out the mining activities in the 213.37 ha of forestland, without obtaining the Stage – II forestry clearance on the same.	<p>Agreed to comply.</p> <p>The Ministry of Environment &amp; Forest Govt. of India granted Final approval ( Stage-II) under Sec-2 of the Van (Sanrakshan Evam Samvardhan) Adhiniyam,1980 on 10.01.2026 for diversion of 213.37 Ha of Forest land. (Copy enclosed as <b>Annexure-1</b>). Further the department of Forest &amp; Environment, Govt. of Odisha granted the Final Diversion of the above Forest Land vide letter No.7890 dated 10.04.2026 (Copy enclosed as <b>Annexure-2</b>). The DFO, Jharsuguda has requested the Collector, Jharsuguda for handing over the revenue forest land to be diverted to Vedanta Ltd vide letter no. 2552 dated 11.05.2026 (Copy enclosed as <b>Annexure-3</b>) The mining operation will commence after handover of the forest land and grant of other statutory clearances.</p>
1.2	Specific	Project proponent shall divert the Lilari Nallah in a manner that its construction for diversion shall be done in one go without affecting habitation and in this regard, works shall be designed to complete the diversion avoiding Monsoon season (i.e. effective working months of non-monsoon season). Embankment height shall be maintained on both side of stream with sufficient free board height from its HFL. The diversion of Lilari Nallah shall be monitored by IRO and complete report with the drone video and satellite imagery shall be submitted to IRO, MOEF&CC. A 50-meter safety barrier shall be left along the diverted nallah.	<p>Agreed to comply.</p> <p>The diversion of Lilari Nallah will be executed in a single phase to avoid any disruption to nearby habitation. All construction activities shall be scheduled exclusively during the non-monsoon season to ensure safety and minimize environmental risks as per the approval from the Water Resources Department (Copy enclosed as <b>Annexure-4</b>) Embankments will be constructed on both sides of the diverted stream with adequate freeboard above the Highest Flood Level (HFL). A 50-meter safety barrier will be maintained along the entire length of the diverted nallah.</p> <p>The Integrated Regional Office (IRO),MoEF&amp;CC, Bhubaneswar will be informed prior to startup up of the diversion work with a request to monitor the same during construction. A comprehensive</p>

Registered Office: Vedanta Limited 1st Floor 'C' wing, Unit 103, Corporate Avenue, Atul Projects, Chakala, Andheri (East), Mumbai 400093, Maharashtra, India.

			report, including drone footage and satellite imagery, will be submitted to the IRO and MoEF&CC upon completion. All works will be designed and implemented to ensure zero impact on existing habitation during and after the diversion process.
1.3	Specific	The mining plan shall be revised/ amended as per the MoC guidelines at later stage after incorporating the diversion of nallah in one go with year-wise coal production.	Agreed to comply.  The mining plan if revised or amended at any point of time it will be done in accordance with the guidelines by Ministry of Coal (MoC) and the same will be intimated to MoEF&CC..
1.4	Specific	Project proponent shall maintain sufficient safety width of embankment all along the diverted stream/ nallah and conduct dense plantation with fruit bearing native species by itself.	Agreed to comply.  The sufficient safety width of the embankment will be maintained along the entire route of the diverted nallah as per relevant guideline and dense plantation will be carried out using fruit-bearing native species to promote ecological balance and biodiversity.
1.5	Specific	Project proponent shall install dedicated in-pit conveyor belt with silo loading system till railway siding for transportation of 100% extracted coal through rail by March 2027. Accordingly, SPCB should grant the consent to operate.	Agreed to comply.  Installation of in-pit conveyor belt system will be explored in the mine. However, a pit head conveyor belt system integrated with a silo loading facility extending up to the railway siding will be installed to ensure transportation of 100% extracted coal exclusively by rail after commissioning of the railway siding.  Till the commissioning of the railway siding, transportation of coal will be carried out by road with observation of all environmental precautions.
1.6	Specific	Transportation of coal shall be done in covered trucks till March 2027, PP shall deploy the truck size of upto 40 tonnes (payload) for transportation of coal by road. Along with this continuous water sprinkling shall be done on the coal transportation road for dust suppression.	Agreed to comply.  The coal transportation will be carried out exclusively in covered trucks with truck sizes having capacity upto 40 tonnes as stipulated. Continuous water sprinkling will be implemented along the coal transportation road for dust suppression.
1.7	Specific	Proponent shall carryout regular maintenance of the potholes on roads, repair and maintenance of roads, scrapping of material fallen on roads, and removal of scraps from mining areas. Along with this, PP shall make sure that all the pollution control equipment's are in good working	Agreed to comply. It will be abided as per the stipulated condition.

Vedanta Limited, Jharsuguda

Vill- Bhurkamunda, P.O- Kalimandir, Dist- Jharsuguda (Odisha)- 768202

		condition and maintenance of those equipment is regularly carried out.	
1.8	Specific	Dedicated concrete Road with 12-mt width, away from the villages and sensitive location like school and hospitals shall be constructed to transport the coal prior to the start of the mining operation.	Agreed to comply.  It will be abided as per the stipulated condition.
1.9	Specific	The budget proposed for PH is Rs 800 Lakhs (capital expenditure) and Rs. 47 Lakhs (recurring expenditure). The budget proposed shall be kept in a separate account and shall be audited annually. Project proponent shall implement the action plan to address the issues raised during public hearing within a time frame of 3 years from the date of grant of EC. PP shall submit the progress report regarding the implementation of action plan to concerned RO along with the six monthly compliance report.	Agreed to comply.  The proposed budget for PH (Rs 800 Lakhs (capital expenditure) and Rs. 47 Lakhs (recurring expenditure) will be spent as per the plan within 3 years from the date of grant of EC and progress report will be submitted to the RO along with six monthly compliance report. Many activities to address issues pertaining to drinking water supply, renovation and upgradation of educational institutes and Health and sanitation have been started in villages falling within the ML area.
1.10	Specific	Project proponent shall implement the protective measure proposed in Environment Management Plan (EMP) in a time-bound manner. The budget earmarked for the same is Rs 2361.1 Lakhs (Capital) and Rs 275.86 Lakhs (recurring) and should be kept in separate accounts and audited annually. The implementation status along with the amount spent with documentary proof shall be submitted to the concerned Regional Office for the activities carried out during the previous year.	Agreed to comply.  All the protective measures proposed in EMP will be implemented as per the stipulated timeline. The budget earmarked for these activities will be kept in a separate account and an annually audited report along the amount spent with documentary proof will be submitted to the concerned Regional Office for the activities carried out during the previous year.  The details of Year wise expenditure will be provided after commencement of mining operations.
1.11	Specific	Project proponent shall implement the following additional environmental safeguards for the project being in SPA: a) A dedicated coal transport corridor shall be constructed in IB Valley Coalfields. b) Reservoir shall be created for storage of mine drainage water and run off which can be used for industrial purpose. c) Surface miner for coal mining purpose shall be used. d) Concurrent mine filling shall be done with dry ash from the thermal power plants.	Agreed to comply.  It will be abided as per the stipulated condition.

		<p>e) Provision for supply of drinking water in the peripheral villages of coal mining area shall be made.</p> <p>f) Rake loading facility in the coal mines shall be enhanced.</p> <p>g) Mine voids shall be backfilled and mined-out area shall be restored. Accordingly, an action plan shall be prepared.</p> <p>h) Stack emission levels should be stringent than the existing standards in terms of the identified critical pollutants.</p> <p>i) Effective fugitive emission control measures should be imposed in the process, transportation, packing, etc.</p>	
1.12	Specific	<p>Project proponent shall deposit the budget of Rs. 31.05 crores proposed for wildlife conservation plan with the competent authority within 6 months from the date of grant of EC.</p>	<p>Complied.</p> <p>The Site-specific Wildlife Management Plan was approved by the PCCF(WL) and Chief Wildlife Warden, Odisha vide letter No. 4371 dated 16.04.2025 with cost outlay of 3105.138 Lakhs including Rs.2700.12 Lakhs for cost of SSWLCP, Rs.270.012 Lakhs towards 10% to Ex-situ Conservation and Rs.135.006 Lakhs as 5% towards Wildlife Odisha.</p> <p>In Addition to the amount of 31.05 crores, an amount of Rs.12,72,63,444.00 has been deposited in the State CAMPA Account on 17.11.2025 towards the cost of Regional Wildlife Management Plan.</p> <p>Details of payment made are enclosed as <b>Annexure-5</b>.</p>
1.13	Specific	<p>Capital cost of Rs. 216.83 crore as part of Mining Closure activities shall be implemented concurrently with stipulation given in mine plan. All the agricultural land shall be restored as part of Mining Closure activities &amp; it is required to be implemented concurrently with stipulation given in mine plan.</p>	<p>Agreed to comply.</p> <p>It will be abided as per the stipulated condition.</p>
1.14	Specific	<p>Project proponent shall develop greenbelt/ plantation at conceptual stage on 329.81 ha of backfilled area, 168.69 ha on Excavated void, 28.87 ha on Road &amp; infrastructure, 7.50 ha on garland drains, 1.28 ha on settling pond and Greenbelt on 17.62 ha along the 7.5m lease periphery. Hence, total 553.77 ha land shall be covered under plantation (including greenbelt) in</p>	<p>Agreed to comply.</p> <p>Green belt area will be developed in phased manner as per the approved mining plan after commencement of the mining operations. Local and fruit bearing species will be planted to the maximum extent and necessary measures will be taken to maintain the survival of 90%. As stipulated, a three-tier plantation will be developed along both</p>

		<p>phases till conceptual stage. Local and fruit bearing species shall be planted. The survival rate shall be maintained to 90%. Further, PP shall develop 3 – tier plantation on both the sides of the transportation road with the native species. Along with this, PP shall also carryout community plantation in the villages on the transportation route and other nearby villages, with at least 50,000 saplings of fruit bearing species of height not less than 2 meter.</p>	<p>sides of the coal transportation road using native species. In addition, community plantation drives will be undertaken in villages along the transportation route and nearby areas, with a target of planting at least 50,000 fruit-bearing saplings of a minimum height of 2 meters.</p>
1.15	Specific	<p>Project proponent shall develop Miyawaki Plantation in the greenbelt area of 17.62 ha. Additionally, 97000 saplings shall be planted along with additional budget of Rs. 300 lakhs, as committed.</p>	<p>Agreed to comply.  It will be abided as per the stipulated condition.</p>
1.16	Specific	<p>Pond exists at the ML boundary shall be protected from the Mine activities and plan be drawn for rejuvenation. Efforts shall be made to maintain the ecology of ponds (within and outside the mine lease in vicinity) with regular desilting and cleaning as a part of capital investment out public hearing and be continued from CSR budget.</p>	<p>Agreed to comply.  The pond located at the ML boundary will be duly protected from all mining activities. A detailed rejuvenation plan will be prepared and implemented to maintain its ecological balance. Regular desilting and cleaning of ponds within and outside the mine lease vicinity shall be carried out as part of capital investment commitments made during the public hearing, and these efforts are being sustained through the CSR budget.</p>
1.17	Specific	<p>As proposed, 5 water harvesting pond shall be created separately to recharging the ground water and usage of project affected families. Further, a pond (at mine lease boundary) shall be protected with fencing by an opening for villagers for fish culture if required and for livestock. Along boundaries a 5 m thick plantation shall be developed.</p>	<p>Agreed to comply.  As proposed, five water harvesting ponds will be created to facilitate groundwater recharge and provide water for project-affected families. Further, the existing pond at the mine lease boundary will be protected with proper fencing, leaving an opening for villagers to access it for fish culture and livestock needs. Along the boundary, a 5 m thick green belt plantation will be developed.</p>
1.18	Specific	<p>Project proponent shall monitor regularly water levels in open dug wells located in village and by establishing Piezometer to ascertain the impact of mining over ground water table and to plan mitigative measures to recharge the area.</p>	<p>Agreed to comply.  It will be complied as per the stipulated condition.</p>
1.19	Specific	<p>Garland drains (2mX3m) or of adequate size shall be provided at the toe of the benches to arrest discharge and runoff</p>	<p>Agreed to comply.</p>

		with silt and sediments surging into areas adjoining the periphery of Overburden dump, which will be regularly cleaned before the onset of monsoon every year.	The Garland drains of adequate size not less than (2mX3m) will be provided at the toe of the benches to effectively arrest discharge and prevent runoff carrying silt and sediments from entering adjoining areas around the Overburden (OB) dump, and will be regularly cleaned before the onset of monsoon every year.
1.20	Specific	Check dams shall be constructed at required locations within drains to arrest eroded materials and settling ponds shall be constructed to treat mine discharge water inside the mine block.	Agreed to comply.  Check dams at required locations within the drainage network to effectively arrest eroded materials and prevent sediment flow and the settling ponds will be developed inside the mine block to treat mine discharge water, ensuring proper sedimentation.
1.21	Specific	Proper profiling of working benches of pits and dumps shall be done to channelize water in garland drains & sumps.	Agreed to comply.  Proper profiling of working benches in pits and dumps to facilitate systematic channelization of rainwater and runoff into garland drains and designated sumps.
1.22	Specific	Waste generated from the domestic use shall be treated in STP and the treated water will be utilized in plantation & greenbelt development. Wastewater from the HEMM washing/workshop will be treated in ETP. After treatment, water will be reused in washing of HEMM, dust suppression and greenbelt development.	Agreed to comply.  All domestic wastewaters will be treated in a Sewage Treatment Plant (STP), and the treated water will be utilized for plantation and greenbelt development purpose. Similarly, wastewater generated from HEMM washing and workshop activities will be treated in an Effluent Treatment Plant (ETP). Post-treatment, the water will be reused for HEMM washing, dust suppression, and greenbelt development.
1.23	Specific	PP shall install 4 Continuous Ambient Air Quality Monitoring Stations for the said project, 2 each in the core zone and the buffer zone. The real time data so generated shall be uploaded on company website and linked it with website of CPCB & SPCB. In addition, data should also be displayed digitally at entry and exit gate of mine lease area for public display.	Agreed to comply.  As per the stipulated conditions, 4 Continuous Ambient Air Quality Monitoring Stations (2 each in the core zone and the buffer zone) will be installed. The real-time monitoring data will be uploaded on the company website and the same will be linked with CPCB and OSPCB servers. The monitoring data will be displayed digitally at the entry and exit gate of the mine lease area.

1.24	Specific	Dumping of OB shall maintain distance of about 200 mts from any of villages and additional Greenbelt development/plantation (atleast 8 to 10 ft trees) shall be carried out at the periphery of the mine lease area as well as in the adjacent area of village.	Agreed to comply.  It will be abided as per the stipulated condition.
1.25	Specific	Project proponent shall limit the activities of mining in its mine lease area only. No OB Dumping and infrastructure activity should be proposed and dumped on forest land. Accordingly revised Mine Plan should be submitted (if required) and submitted to Ministry.	Agreed to comply.  It will be abided as per the stipulated condition.
1.26	Specific	Project proponent shall make use of advanced computer simulation techniques for design and execution of blasting operation in the mine. PP shall make use of Electronic Delay Detonators for optimal blasting in coal and OB rock to minimize the environmental impacts of blasting such as ground vibration, fly rocks and excessive dust generation.	Agreed to comply.  Advanced computer simulation techniques for the design and execution of blasting operations within the mine will be established to ensure precision and safety. As stipulated The Electronic Delay Detonators (EDD) will be utilized for optimal blasting in both coal and OB rock, thereby minimizing environmental impacts such as ground vibration, fly rock, and excessive dust generation.
1.27	Specific	Project proponent shall deploy atleast 20% of overall fleet of dumpers/trucks as electrical or CNG/LNG based dumpers/trucks for transportation of coal/OB etc.	Agreed to comply.  It will be abided as per the stipulated condition.
1.28	Specific	Project proponent shall reduce the carbon footprint after sequestration of CO <sub>2</sub> . IRO will review the progress of CO <sub>2</sub> sequestration. The process of sequestration of CO <sub>2</sub> will include the planting trees, by "Developing carbon capture and storage (CCS) technologies" and implementation of renewable energy. Further, PP shall carry out enough plantation to ensure carbon sequestration lost due to deforestation and other fossil fuel based activities.	Agreed to comply.  The protection measures towards reduction of carbon footprint through effective CO <sub>2</sub> sequestration strategies will be implemented. This will include extensive plantation programs to compensate for carbon loss due to deforestation by "Developing carbon capture and storage (CCS) technologies" and implementation of renewable energy. The progress report of CO <sub>2</sub> sequestration will be submitted to IRO for review.
1.29	Specific	Rehabilitation and Resettlement of the 6 villages falling within the ML area shall be completed in a time bound manner and the R&R amount as per the approved R&R plan shall be deposited with the State Government.	Agreed to comply.  The rehabilitation and resettlement of the 6 villages falling within the ML area will be done as per the LAAR Act 2013 and ORRP 2006 as per stipulated timeline. The R&R amount finalized during the RPDAC

			meeting will be deposited with the State Government.
1.30	Specific	Project proponent shall pay to farmers of agricultural land if there is any loss due to pollution found by concerned District Commissioner as per extent rules or norms.	Agreed to comply.  It will be abided as per the stipulated condition.
1.31	Specific	Project proponent should establish in house (at project site) environment laboratory for measurement of environment parameter with respect to air quality and water (surface and ground). A dedicated team to oversee environment management shall be setup which should comprise of Environment Engineers, Laboratory chemist and staff for monitoring of air, water quality parameters on routine basis. Any non-compliance or infringement should be reported to the concerned authority.	Agreed to comply.  A well-equipped environmental Laboratory will be established in the project site for measurement of air and water quality. In addition to this a dedicated team will be engaged for monitoring of environmental parameters.
1.32	Specific	Hon'ble Supreme Court in an Writ Petition(s) Civil No. 114/2014, Common Cause vs Union of India & Ors. vide its judgement dated 8th January, 2020 has directed the Union of India to impose a condition in the mining lease and a similar condition in the environmental clearance and the mining plan to the effect that the mining lease holders shall, after ceasing mining operations, undertake regressing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc. Compliance of this condition after the mining activity is over at the cost of the mining lease holders/Project Proponent". The implementation report of the above said condition shall be sent to the Regional Office of the MoEF&CC.	Agreed to comply.  After ceasing mining operations, re-grassing the mining area and any other area which got disturbed due to mining activities will be undertaken. The implementation report will be submitted to Regional Office, MoEF&CC on regular basis.
1.33	Specific	Project proponent shall conduct feasibility studies for assessment of voids for backfilling of ash and mixing of ash with overburden, taking up backfilling ash and OB mixing activities during operations as well as post closure of mines in line with the Fly Ash Utilization Notification, 2021.	Agreed to comply.  A feasibility study will be conducted to assess the potential for filling mine voids with fly ash and mixing ash with overburden. Based on the findings and recommendations of the study, and due approval from DGMS, Ministry of Labour, GoI backfilling with ash and OB mixing will be undertaken during the operational phase and post-closure of the mines, in compliance

			with the Fly Ash Utilization Notification, 2021.
1.34	Specific	Project proponent shall ensure that all types of plastic waste generated from the plant shall be stored separately in isolated area and disposed of strictly adhering to the Plastic Waste Management Rules 2016 (as amended). In pursuant to the Ministry's OM dated 18/07/2022. PP shall also create awareness among the people working in the ML area as well as in its surrounding area on the ban on Single Use Plastic (SUP) in order to ensure compliance of Ministry's Notification published by the Ministry on 12/08/2021. A report along with photograph on the measures taken shall also be included in the six monthly compliance report being submitted by PP.	Agreed to comply.  All types of plastic waste generated during mine operations shall be stored separately in an earmarked location and disposed of as per the Plastic Waste Management Rules 2016 (as amended). Awareness programme shall be conducted to sensitize the people working in the projects and surrounding area about the ban on Single-Use Plastic (SUP) in order to ensure compliance of Ministry's Notification published by the Ministry on 12.08.2021. The report along with photographs on the measures taken shall be included in the six-monthly compliance report and being submitted to MoEF&CC.
1.35	Specific	Project proponent shall create a "Public Grievance Redressal and Monitoring System" for resolving any issues related to the pollution of mines and complaint has to resolve as soon as possible not beyond 30 days. In this regard, adequate awareness to be spread among the public to address their grievance to company with simple and easy manner and for which company needs to devise the mechanism. The same shall be reported to RO within 3 months. A logbook to be maintained by PP on "Public Grievance Redressal and Monitoring System.	Agreed to comply.  A 'Public Grievance Redressal and Monitoring System' will be established to address any complaints related to mine pollution, ensuring resolution within a maximum of 30 days. Adequate awareness programs will be conducted to inform the public about the simple and accessible grievance mechanism. A detailed logbook of all grievances and actions taken will be maintained, and a report on the system's implementation will be submitted to the Regional Office within three months.
1.36	Specific	Third-party audit (by NEERI/CIMFR/IIT/NITs) for air & water quality shall be carried out annually to keep a check on the same. PP shall implement the recommendations of the audit and submit the outcome of the audit to the concerned RO of MoEF&CC.	Agreed to comply.  An annual third-party audit of air and water quality shall be conducted through accredited institutions such as NEERI, CIMFR, IIT, or NIT. All recommendations provided in the audit report shall be implemented promptly, and the outcome of the audit shall be submitted to the Integrated Regional Office (IRO), MoEF&CC, Bhubaneswar.
1.37	Specific	Project proponent is advised to implement the 'Ek Ped Maa Ke Naam' Campaign which was launched on 5th June 2024 on the occasion of the World Environment Day to increase the forest cover across the Country. This plantation drive is other than Green belt	Agreed to comply.  The campaign named 'Ek Ped Maa Ke Naam' will be implemented to enhance the forest cover across the country, in addition to the regular greenbelt development activities. Progress and actions taken under this

		development. The action in this regard shall be submitted concerned RO in six monthly report.	initiative will be documented and reported to the concerned RO in the six-monthly compliance report.
1.38	Specific	Persons of nearby villages shall be given training on livelihood and skill development to make them employable with its proper records.	Agreed to comply.  Adequate training will be provided to the persons of nearby villages on livelihood and skill development to make them employable with its proper records.
<b>Standard EC Conditions for (Mining of minerals)</b>			
<b>Statutory Compliance</b>			
1.1	Statutory	The Environmental clearance shall be subject to orders of Hon'ble Supreme Court of India, Hon'ble High Courts, NGT and any other Court of Law, from time to time, and as applicable to the project.	Agreed to comply.  It will be abided as per the stipulated condition.
1.2	Statutory	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	Not Applicable. However, The Site-specific Wildlife Management Plan was approved by the PCCF(WL) and Chief Wildlife Warden, Odisha vide letter No. 4371 dated 16.04.2025 with cost outlay of 3105.138 Lakhs including Rs.2700.12 Lakhs for cost of SSWLCP, Rs.270.012 Lakhs towards 10% to Ex-situ Conservation and Rs.135.006 Lakhs as 5% towards Wildlife Odisha. The copy of the approval is enclosed as <b>Annexure-6</b> .
1.3	Statutory	Solid / hazardous waste generated in the mines needs to addressed in accordance to the Solid Waste Management Rules, 2016/Hazardous & Other Waste Management Rules, 2016.	Agree to comply.  Solid and Hazardous waste generated during mining activity will be handled as per Solid waste Management Rules,2016/Hazardous and Other waste Management Rules,2016.
1.4	Statutory	The maximum production at any given time shall not exceed the limit as prescribed in the EC.	Agreed to comply.  Coal production will not exceed the approved capacity of 8.00 MTPA (peak capacity).
1.5	Statutory	Validity of EC is as per life of the mine mentioned in EC letter or 30 years as per EIA Notification, 2006 and its amendments therein.	Agreed to comply.  It will be abided as per the stipulated condition.
<b>Air Quality Monitoring And Mitigation Measure</b>			
2.1	Air	Project proponent shall obtain requisite consent from State Pollution Control Board for 8 MTPA coal mining.	Complied.  The Environmental Safeguard order has been obtained from SPCB, Odisha vide letter No.17291 and Document No. (IND-II-CTE-7211) dated 19.09.2025. The copy is enclosed as <b>Annexure-7</b> . Also CTO has

			been obtained from OSPCB vide Consent Order No. 5091 bearing letter No 4071/IND-I-CON-7067 dated 25.03.2026 . The copy is enclosed as <b>Annexure-8</b> .
2.2	Air	Adequate ambient air quality monitoring stations shall be established in the core zone as well as in the buffer zone for monitoring of pollutants, namely particulates, SO <sub>2</sub> and NO <sub>x</sub> . Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive receptors in consultation with the State Pollution Control Board.	Agreed to comply.  04 Nos. of Continuous ambient air quality monitoring stations will be installed in consultation with Regional Officer of State Pollution Control Board in the core and buffer zone for monitoring of pollutants, namely particulates, SO <sub>2</sub> and NO <sub>x</sub> . Location of the stations will be decided in consultation with the State Pollution Control Board.
2.3	Air	The Ambient Air Quality monitoring in the core zone shall be carried out to ensure the Coal Industry Standards notified vide GSR 742 (E) dated 25th September, 2000 and as amended from time to time by the Central Pollution Control Board. Data on ambient air quality and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly reported to the Ministry/Regional Office and to the CPCB/SPCB.	Agreed to comply.  The Ambient Air Quality monitoring in the core zone will be carried out to ensure the Coal Industry Standards notified vide GSR 742 (E) dated 25 <sup>th</sup> September 2000 and as amended from time to time by the Central Pollution Control Board. The data on ambient air quality and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data will be submitted to the Ministry/Regional Office and to the CPCB/SPCB.
2.4	Air	Effective control measures such as regular water sprinkling/rain gun/ Fog cannon /mist sprinkling etc., shall be carried out in critical areas prone to air pollution with higher level of particulate matter all through the coal transport roads, loading/unloading and transfer points. Fugitive dust emissions from all sources shall be controlled regularly. It shall be ensured that the ambient air quality parameters conform to the norms prescribed by the Central/State Pollution Control Board.	Agreed to comply.  All preventive measures will be carried out in critical areas prone to air pollution with higher level of particulate matter all through the coal transport roads, loading/unloading and transfer points to maintain the pollution level below the prescribed standard as prescribed by CPCB/SPCB. All necessary measures will be taken to control the fugitive dust generation.
2.5	Air	Major approach roads shall be black topped and properly maintained.	Agreed to comply.  The major approach road will be black topped with appropriate dust suppression measures.
2.6	Air	Vehicular emissions shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied activities shall operate only after	Agreed to comply.  Vehicular emission will be checked in regular interval. It will be ensured to have a

		obtaining 'PUC' certificate from the authorized pollution testing centers.	valid PUC for all deployed vehicle in mining operation.
2.7	Air	PP should Install Wind breaker/shield arrangement along the railway siding for reducing the dust propagation in upwind direction.	Agreed to comply.  The Wind breaker/shield arrangement will be installed along the railway siding for reducing the dust propagation in upwind direction.
2.8	Air	The raw coal shall be stacked properly at earmarked site (s) within stockyards fitted with wind breakers/shields. Adequate measures shall be taken to ensure that the stored mineral does not catch fire.	Agreed to comply.  It will be abided according to the stipulated condition.
2.9	Air	PP shall submit an action plan for using and developing Renewable Energy for its consumption in its utilities/machinery/equipment instead of using electricity from Grid/generated from Thermal Power Plants. PP shall Install additional solar power generation units of at-least 2 MW.	Agreed to comply.  An action plan will be prepared and submitted for using and developing Renewable Energy for its consumption in its utilities/machinery/equipment instead of using electricity from Grid/generated from Thermal Power Plants to reduce energy and fuel consumption through. Additionally, the solar power generation units of at-least 2 MW shall be installed.
<b>Water Quality Monitoring And Mitigation Measures</b>			
3.1	Water	The effluent discharge (mine waste water, workshop effluent) shall be monitored in terms of the parameters notified under the Water Act, 1974 Coal Industry Standards vide GSR 742 (E) dated 25th September, 2000 and as amended from time to time by the Central Pollution Control Board.	Agreed to comply.  It will be abided according to the stipulated condition.
3.2	Water	The monitoring data shall be uploaded on the company's website and displayed at the project site at a suitable location. The circular No. J-20012/1/2006-IA.11 (M) dated 27th May, 2009 issued by Ministry of Environment, Forest and Climate Change shall also be referred in this regard for its compliance.	Agreed to comply.  Monitoring data will be uploaded on the Company website and displayed at the project site.
3.3	Water	The project proponent shall not alter major water channels around the site. Appropriate embankment shall be provided along the side of the river/nallah flowing near or adjacent to the mine. The embankment constructed along the river/nallah boundary shall be of suitable dimensions and critical patches shall be strengthened by stone	Agreed to comply.  Appropriate embankment will be provided along the side of the nallah as per the approved design. The embankments will be strengthened by stone pitching and stabilized with plantation so as to withstand the peak water pressure preventing any chance of mine inundation.

		pitching on the river front side, stabilized with plantation so as to withstand the peak water pressure preventing any chance of mine inundation.	
3.4	Water	The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz. watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly	Agreed to comply.  The water pumped out from the mines will be collected in the settling pond, and after treatment it will further be utilised for industrial and other purpose. The drain will be regularly desilted and maintained.
3.5	Water	Industrial wastewater from coal handling plant and mine water shall be properly collected and treated so as to conform to the standards prescribed under the Environment (Protection) Act, 1986 and the Rules made thereunder, and as amended from time to time. Oil and grease trap shall be installed before discharge of workshop effluent. Sewage treatment plant (STP) of adequate capacity shall be installed for treatment of domestic wastewater.	Agreed to comply.  It will be abided according to the stipulated condition.
3.6	Water	An integrated surface drainage plan including surface water conservation plan for the area of influence affected by the said mining operations and coal washery shall be prepared, considering the presence of any river/rivulet/pond/lake etc., with impact of mining activities on it, and implemented\ by the project proponent. The surface drainage plan and/or any diversion of natural water courses shall be as per the provisions of the approved Mining Plan/ EIA-EMP submitted to this Ministry and the same should be done with due approval of the concerned State/Gol Authority. The construction of embankment to prevent any danger against inrush of surface water into the mine should be as per\ the approved mining plan and as per the permission of DGMS.	Agreed to comply.  The surface drainage plan including surface water conservation plan for the area of influence will be implemented as per the approved Mining Plan and EIA-EMP. Embankment will be constructed to avoid inrush of surface water ingress in to the mine as per the approved mining plan.
3.7	Water	The project proponent shall take all precautionary measures to ensure reverian/ riparian ecosystem in and around the coal mine upto a distance of 5 km. A revarian /riparian ecosystem conservation and management plan	Agreed to comply.  A riverine, riparian ecosystem conservation plan will be prepared and implemented in consultation with the Irrigation, water resource department, Govt. of Odisha.

		should be prepared and implemented in consultation with the irrigation / water resource department in the state government.	
3.8	Water	Construction of Sewage Treatment Plant (STP)/Effluent treatment Plant (ETP) with latest technology should be completed within 2 years and treated water shall be reused for plantation.	<p>Agreed to comply.</p> <p>The Sewage treatment plant (STP)/Effluent treatment Plant (ETP) with latest technology will be installed. The treated water released from these plants will be reused for plantation.</p>
<b>Noise And Vibration Monitoring And Prevention</b>			
4.1	Noise	Adequate measures shall be taken for control of noise levels as per Noise Pollution Rules, 2016 in the work environment. Workers engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with personal protective equipment's (PPE) like ear plugs/muffs in conformity with the prescribed norms and guidelines in this regard. Adequate awareness programme for users to be conducted. Progress in usage of such accessories to be monitored.	<p>Agreed to comply.</p> <p>Adequate measures will be taken to control Noise level within the prescribed limits.</p> <p>We ensuring to provide all necessary PPEs like ear plugs, muffs to the worker engaged in the noise prone area i.e., blasting, drilling operations, operation of HEMM, etc.</p> <p>We will also organise awareness, training programme to create sensation about use of PPEs among the employees and stockholders. All measures shall be taken to control the noise level within the prescribed limit as per Noise Pollution Rules,2016</p>
4.2	Noise	The noise level survey shall be carried out as per the prescribed guidelines to assess noise exposure of the workmen at vulnerable points in the mine premises, and report in this regard shall be submitted to the Ministry/RO on six-monthly basis.	<p>Agreed to comply.</p> <p>Regular noise level monitoring will be carried out at various vulnerable points of the mines, and report will be submitted to ministry, RO along with six monthly compliances.</p>
<b>Mining Plan</b>			
5.1	MP	Project proponent shall obtain star rating as per the guidelines of Ministry of Coal.	<p>Agreed to comply.</p> <p>All necessary measures will be taken to obtain star rating as per the guidelines of Ministry of Coal.</p>
5.2	MP	Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate legislations made there-under as applicable.	<p>Agreed to comply.</p> <p>Mining operations will be carried out in strict adherence to the provisions of the Mines Act, 1952 and all subordinate legislations made thereunder, as applicable.</p>
5.3	MP	No change in mining method, calendar programme and scope of work shall be made without obtaining prior approval	<p>Agreed to comply.</p> <p>It will be abided according to the stipulated condition.</p>

		of the Ministry of Environment, Forest and Climate Change (MoEF&CC).	
5.4	MP	Mining shall be carried out as per the approved mining plan (including Mine Closure Plan) abiding by mining laws related to coal mining and the relevant circulars issued by Directorate General Mines Safety (DGMS).	Agreed to comply.  Mining Operation will be carried out as per approved mining plan and mine closure plan and will abide mining laws related to coal mining and the relevant circulars issued by DGMS and amended time to time.
5.5	MP	Environmental conditions of mining place shall be rendered ergonomic and air breathable with adequate illumination in conformance with DGMS standards.	Agreed to comply.  It will be abided according to the stipulated condition.
5.6	MP	No mining shall be carried out in forest land without obtaining Forestry Clearance as per Forest (Conservation) Act, 1980 and also adhering to the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 read with provisions of Indian Forest Act, 1927.	Agreed to comply.  The Ministry of Environment & Forest Govt. of India granted Final approval (Stage-II) under Sec-2 of the Van (Sanrakshan Evam Samvardhan) Adhiniyam, 1980 on 10.01.2026 for diversion of 213.37 Ha of Forest land. (Copy enclosed as Annexure-1). Further the department of Forest & Environment, Govt. of Odisha granted the Final Diversion of the above Forest Land vide letter No.7890 dated 10.04.2026 adhering to the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006. (Copy enclosed as Annexure-2).
<b>Land Reclamation</b>			
6.1	LR	Digital Survey of entire lease hold area/core zone using Satellite Remote Sensing survey shall be carried out at least once in three years for monitoring land use pattern and report in 1:50,000 scale or as notified by Ministry of Environment, Forest and Climate Change (MOEF&CC) from time to time shall be submitted to MOEF&CC/Regional Office (RO).	Agreed to comply.  Digital Survey will be carried out as per the stipulated condition and report of the same will be submitted to MOEF&CC and Regional Office (RO).
6.2	LR	Post-mining land be rendered usable for agricultural/forestry purposes and shall be handed over to the respective State Government, as specified in the Guidelines for Preparation of Mine Closure Plan, issued by the Ministry of Coal dated 27th August, 2009 and subsequent amendments.	Agreed to comply.  Post-mining land will be rehabilitated and rendered suitable for agricultural/forestry purposes in accordance with the Guidelines for Preparation of Mine Closure Plan issued by the Ministry of Coal dated 27th August 2009 and its subsequent amendments. The

			reclaimed land will be handed over to the respective State Government as per the stipulated provisions.
6.3	LR	The final mine void depth should preferably be as per the approved Mine Closure Plan, and in case it exceeds 40 m, adequate engineering interventions shall be provided for sustenance of aquatic life therein. The remaining area shall be backfilled and covered with thick and alive top soil. Postmining land be rendered usable for agricultural/forestry purposes and shall be diverted. Further action will be treated as specified in the guidelines for Preparation of Mine Closure Plan issued by the Ministry of Coal dated 27th August, 2009 and subsequent amendments.	Agreed to comply.  The final mine void depth will be maintained as per the approved Mine Closure Plan, and where the depth exceeds 40 m, adequate engineering interventions will be implemented to sustain aquatic life therein. The remaining area will be backfilled and covered with thick, live topsoil to ensure land stability and fertility. Post-mining land will be rendered suitable for agricultural and/or forestry purposes and will be diverted as per statutory requirements. All actions will be carried out in compliance with the Guidelines for Preparation of Mine Closure Plan issued by the Ministry of Coal dated 27th August 2009 and subsequent amendments.
6.4	LR	The entire excavated area, backfilling, external OB dumping (including top soil) and afforestation plan shall be in conformity with the “during mining”/“post mining” land-use pattern, which is an integral part of the approved Mining Plan and the EIA/EMP submitted to this Ministry. Progressive compliance status vis-a-vis the post mining land use pattern shall be submitted to the MoEFCC/RO.	Agreed to comply.  It will be abided according to the stipulated condition.
6.5	LR	Further, it may be ensured that as per the time schedule specified in mine closure plan it should remain live till the point of utilization. The topsoil shall temporarily be stored at earmarked site(s) only and shall not be kept unutilized. The top soil shall be used for land reclamation and plantation purposes. Active OB dumps shall be stabilized with native grass species to prevent erosion and surface run off. The other overburden dumps shall be vegetated with native flora species. The excavated area shall be backfilled and afforested in line with the approved Mine Closure Plan. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self sustaining. Compliance status shall be submitted to the Ministry of	Agreed to comply.  It will be abided as per the stipulated condition. Compliance status will be submitted to MoEF&CC, Regional Office on regular basis.

		Environment, Forest and Climate Change/ Regional Office.	
6.6	LR	The project proponent shall make necessary alternative arrangements, if grazing land is involved in core zone, in consultation with the State government to provide alternate areas for livestock grazing, if any. In this context, the project proponent shall implement the directions of Hon'ble Supreme Court with regard to acquiring grazing land.	Agreed to comply.  It will be abided as per the Govt. of Odisha Revenue and Disaster Management Department circular no-25616 dated 27.08.2014 issued by Addl. Chief Secy., R&DM Dept. Govt. of Odisha (Copy of the Circular attached as <b>Annexure-9</b> )
<b>Public Hearing And Human Health Issues.</b>			
7.1	PH& HH	Adequate illumination shall be ensured in all mine locations (as per DGMS standards) and monitored weekly. The report on the same shall be submitted to this ministry & it's RO on six monthly basis.	Agreed to comply.  It will be abided as per the stipulated condition.
7.2	PH& HH	The project proponent shall undertake occupational health survey for initial and periodical medical examination of the personnel engaged in the project and maintain records accordingly as per the provisions of the Mines Rules, 1955 and DGMS circulars. Besides regular periodic health check-up, 20% of the personnel identified from workforce engaged in active mining operations shall be subjected to health check-up for occupational diseases and hearing impairment, if any, as amended time to time.	Agreed to comply.  It will be abided as per the stipulated conditio
7.3	PH& HH	Personnel (including outsourced employees) working in core zone shall wear protective respiratory devices and shall also be provided with adequate training and information on safety and health aspects.	Agreed to comply.  It will be abided as per the stipulated condition
7.4	PH& HH	Skill training as per safety norms specified by DGMS shall be provided to all workmen including the outsourcing employees to ensure high safety standards in mines.	Agreed to comply.  Skill training as per safety norms specified by DGMS will be provided to all workmen including the outsourcing employees to ensure high safety standards in mines.
7.5	PH& HH	Effective arrangement shall be made to provide and maintain at suitable points conveniently situated, a sufficient supply of drinking water for all the persons employed.	Agreed to comply.  Effective arrangements will be made to provide and maintain a sufficient supply of safe drinking water at conveniently located points for all persons employed, in full compliance with statutory requirements.
7.6	PH& HH	The project proponent shall follow the mitigation measures provided in this Ministry's OM No.Z11013/5712014-	Agreed to comply.  All mitigation measures will be undertaken

		IA.11 (M) dated 29th October, 2014, titled 'Impact of mining activities on habitations-issues related to the mining projects wherein habitations and villages are the part of mine lease areas or habitations and villages are surrounded by the mine lease area'.	to mitigate the impact of mining activities on habitations of villages surrounded by the mine lease area as per the Ministry's OM No.Z-11013 of 5712014-IA.11 (M) dated 29th October 2014.
7.7	PH& HH	PP should conduct epidemiology study for analysis of the distribution, patterns and determinants of health and disease conditions in defined populations.	Agreed to comply.  An epidemiological study will be conducted to analyse the distribution, patterns, and determinants of health and disease conditions within the defined population.
<b>Corporate Environment Responsibility</b>			
8.1	CSR	The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental/forest/wildlife norms/conditions. The company shall have defined system of reporting infringements/deviation/violation of the environmental/forest/wildlife norms/conditions and/or shareholders/stake holders.	Complied.  Vedanta has well-framed Corporate Environment Policy. Suitable SOP and reporting system will be developed and implemented. Copy of Corporate Environment Policy attached as <b>Annexure-10</b> .
8.2	CSR	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.	Agreed to comply.  A dedicated Environment Division at company head quarter level, with qualified personnel is there. Environmental Cell will be developed at the project site with qualified personnels once the Mining Operation starts.
8.3	CSR	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.	Agreed to comply.  Action plan for implementation of EMP and environment conditions along with responsibility matrix of the company will be prepared and approved by the competent authority. The year wise funds earmarked for environmental protection will be kept in separate account. Year wise progress of implementation will be submitted to the Ministry, Regional Office along with the six-monthly compliance report.
